

HARISH S

Objectives

To leverage my computer science knowledge and programming skills to develop efficient, user-focused solutions while continuously enhancing my technical expertise and contributing to innovative projects.

Projects

- **Bus Tracking Application** (Driver & Student App) – Flutter, Firebase Realtime Database, OpenStreetMap API
- **Driver and student apps** for real-time bus tracking. Implemented live location sharing (10-second updates), route management, and estimated arrival time display using Firebase and OpenStreetMap.
- **Cataract Detection Application** – Flutter, TensorFlow Lite, Roboflow API
Built an AI-powered app for cataract detection from uploaded eye images, delivering instant screening results with a clean, user-friendly interface.
- **Cyber Safe** – Cybersecurity Toolkit – Flutter, Firebase, OpenStreetMap API
Created a cybersecurity app to check data breaches, scan URLs/files for malware, report incidents, test password strength, and provide real-time safety guidance via chatbot.
- **Online Order & Consumer Application** – Mobile Shop – Flutter, Firebase, PDF Generation , Developed e-commerce app with separate admin and user modules for browsing, ordering, tracking deliveries, managing products, and generating sales reports.

Internship Experience

FlutterFrog Software Solutions LLP

Software Developer

Part time | Former Intern

Nov -2024 |Jan -2026

- Developed cross-platform mobile apps using Flutter with responsive UI.
- Integrated Firebase (Auth, Firestore, Storage) for backend services.
- Built distributor/admin apps (Stockflow, Feelflow) with dashboards, order, and sales management.
- Took responsibility for developing Quika, an eCommerce app for purchasing products from distributors.
- Contributed to multiple projects: Finance App, Ricemill Application, Veby, and TN Chambers.
- Implemented MVC architecture and integrated APIs for efficient data handling.

Achivements & Participation

- 1st Prize – College Hackathon (2025) – Biodegradable Film Risk Monitoring System
- 1st Prize – SDG 12 Hackathon, Techfest 2025
- 1st Prize – Coding for Sustainability, Techfest 2025
- 2nd Prize – College Hackathon (2024) – Litter Detection Project
- 3rd Prize – 18-Hour Hackathon, Govt. College of Engineering, Thrissur
- Presented a paper on Agri Bio Trace at an IEEE Conference at National Institute of Technology Delhi.
- Participant – IEEE Reliability Summit Madras Section
- Attendee – International Conference on Computational Intelligence and Data Analytics(2024)
- Participant – Withon's25 , Anna University , Guindy
- Participated in U.S T global Final Hackathon

Extra-Curricular Activities

- Treasurer – Youth Red Cross
- Member – IEEE Student Branch

Education

BE Computer Science And Engineering
St Xavier's Catholic College Of Engineering
Nagercoil , Anna University
2023-2027 | Current CGPA :8.89
SLB Government Higher Secondary School,
Nagercoil

Technical Skills

Programming Languages

C , C++ , java , Dart

Web App Development

HTML , CSS , Flutter

Tools Technolgies

Glthub , FireBase , Glthub Copilot

Soft Skills

- Teamwork
- Time Management
- Critical Thinking
- Effective Communication

Certifications

- Internet of Things(IOT)-NPTEL
- Database Programming with PLSQL-Oracle
- Certification in C&c++ -PathavenTech

Languages

- Tamil (fluent)
- English (fluent)
